

# Space for cycling ride 22nd April 2017

## Notes for participants

1. This is not an “Organised Ride”, there are no official ride leaders just a few of us who know the route, you join us at your own risk.
2. Wherever possible keep together. When the front of the ride has passed through a green light keep going if the lights change. Riders will be blocking traffic ensuring that we can all pass through safely.
3. Be non-confrontational, on wide roads with multiple lanes aim to take one or two lanes to allow traffic to pass where it is safe to do so.
4. Some of the route is on shared paths. Treat pedestrians as you would like drivers to treat you when you ride. Give them plenty of space and cede priority where appropriate.
5. On the “Cycle Super Highway” we will keep to the left as much as possible to give cyclists riding in the other direction room to pass.
6. Enjoy yourself.
